Food Contact Declaration of Compliance

We declare under our sole responsibility that the product:

Product Name: Thermo mug

Model / Item Number: FR-H1091

Is corresponding/ same to the product/articles to **Jaxmotech GmbH**

Brand: SEG

Model No.: TM 2701

Test Report Number(s): EFBH26081159-CG-01

Material Composition:

Body & Straw: Stainless Steel SS304

Lid: Plastic PS (Polystyrene)

Sealing Ring & Straw Tips: Silicone

We hereby declare that the product object of this declaration specified above complies with the essential requirements and applicable provisions laid down in the following European Union and national legislations:

- German Food, Articles of Daily Use and Feed Code (Lebensmittel-, Bedarfsgegenstände- und Futtermittelgesetzbuch - LFGB), explicitly Sections 30 and 31.
- Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food (explicitly Article 3 and Article 16).
- Regulation (EU) No 10/2011 on plastic materials and articles intended to come into contact with food (including all subsequent amendments).
- Regulation (EU) No 2024/3190 regarding specific restrictions and migration of Bisphenol A (BPA).
- For materials where specific EU-wide harmonized measures do not yet exist (Stainless Steel and Silicone), compliance with Article 3 of Regulation (EC) No 1935/2004 and LFGB requirements is demonstrated via the Principle of Mutual Recognition based on the following recognized European frameworks:
 - Council of Europe Resolution CM/Res(2020)9 & EDQM Technical Guide on Metals and Alloys used in food contact materials and articles (2nd Edition, 2024).
 - German BfR Recommendation XV for Silicone

Information on Substances with Specific Restrictions (SML & Dual-Use Additives)

- Overall migration is below 10mg/dm² under standard testing conditions laid down in Regulation (EC) No. 10/2011.
- All monomers, additives, or substances subject to Specific Migration Limits (SML) or dual-use additives comply with the respective migration limits specified in Annex I and Annex II of Regulation (EU) No 10/2011.
- Specific release of heavy metals from metallic components complies with the Specific Release Limits (SRLs) outlined in the EDQM Technical Guide (2024).
- Volatile Organic Matter (VOM) of silicone components complies with recognized safety thresholds (0.5% w/w).
- In accordance with Regulation (EU) No 10/2011 and Regulation (EU) No 2024/3190, Bisphenol A (BPA) is Not Detected (ND), ensuring full compliance with the total ban on BPA for reusable food and beverage containers

Specifications on the Intended Use of the Material

- Type of food / beverage intended to come into contact: Aqueous, acidic, alcoholic, and fatty beverages.
- Time and temperature of treatment and storage in contact with the food:
 - Hot filling / contact conditions tested up to 100°C for 4 hours (for Acetic Acid 3% and Ethanol 50%).
 - Contact conditions tested up to 60°C for 6 hours / 4 hours (for Ethanol 95% and Isooctane).
 - Suitable for repeated-use contact.
- Ratio of food contact surface area to volume used to establish compliance: Complies with standard European testing verification ratios.

Best regards
Jacqueline Schmid
